Reference: Thermal Gas Compression Engine  
Application No. 10/733,898; Art 3748; Confirmation No. 8456  
Examiner - Mr. Charles Freay; Filing date: 12/11/2003  
Fax # 1-571-273-4827

Dear Patent Examiner,

I have been informed that my request for make special for processing my application has not been entered in your data base. I submitted a fee of \$130 with a petition to "Make Special" at the time of filing on 12/11/2003 based on age. I am now 70 years old with some health problems and heart surgeries. I also wish to further support my petition for "make Special" on the purpose of the patent. The innovative technology addresses the US energy problem. The power system can potentially provide a power system that will provide higher thermal efficiencies, complete fuel flexibilities and cleaner atmospheric emissions than the state of the art.

Submitted respectfully,

*Indru J. Primalani*
